✉ [jiwoo.jg@gmail.com](mailto:jiwoo.jg@gmail.com)   [jiwoogit.github.io](https://github.com/jiwoogit)   in [jiwoo-chung-944182289](https://www.linkedin.com/in/jiwoo-chung-944182289)   [jiwoogit](https://github.com/jiwoogit)

## Research Summary

Ph.D. student in the efficiency of generative modeling and applications. 4 first-author papers at top conference, including a CVPR 2024 Highlight and CVPR 2026 Oral, with research intern experience at NAVER Cloud.

## Education

|                                                                                                                                                                            |                |

## First-Authored Publications

- [1] **SeaCache: Spectral-Evolution-Aware Cache for Accelerating Diffusion Models** CVPR 2026 Oral  
**Jiwoo Chung**, Sangeek Hyun, MinKyu Lee, Byeongju Han, Geonho Cha, Dongyoon Wee, Youngjun Hong\*, and Jae-Pil Heo\*  
[arXiv] [Code] [Project] *Best Paper Finalist*
- [2] **Fine-Tuning Visual Autoregressive Models for Subject-Driven Generation** ICCV 2025  
**Jiwoo Chung**, Sangeek Hyun, Hyunjun Kim, Eunseo Koh, MinKyu Lee, Jae-Pil Heo  
🏆 Selected as a Finalist for Qualcomm Innovation Fellowship Korea 2025  
[arXiv] [Code] [Project]
- [3] **Style Injection in Diffusion: A Training-free Approach for Adapting Large-Scale Diffusion Models for Style Transfer** CVPR 2024 Highlight (400+ Citations)  
**Jiwoo Chung\***, Sangeek Hyun\*, Jae-Pil Heo  
[arXiv] [Code] [Project]
- [4] **Diversity-aware Channel Pruning for StyleGAN Compression** CVPR 2024  
**Jiwoo Chung**, Sangeek Hyun, Sang-Heon Shim, Jae-Pil Heo  
[arXiv] [Code] [Project]

## Co-Authored Publications

---

- [5] **Analyzing the Training Dynamics of Image Restoration Transformers: A Revisit to Layer Normalization** ICLR 2026  
MinKyu Lee, Sangeek Hyun, Woojin Jun, Hyunjun Kim, Jiwoo Chung, and Jae-Pil Heo
- [6] **Diffusion Feature Field for Text-based 3D Editing with Gaussian Splatting** NeurIPS 2025  
Eunseo Koh, Sangeek Hyun, MinKyu Lee, Jiwoo Chung, Kangmin Seo, Jae-Pil Heo
- [7] **Towards Squeezing-averse Virtual Try-on via Sequential Deformation** AAAI 2024  
Sang-Heon Shim, Jiwoo Chung, Jae-Pil Heo
- [8] **Frequency-based Motion Representation for Video Generative Adversarial Networks** TIP 2023  
Sangeek Hyun, Jaihyun Lew, Jiwoo Chung, Euiyeon Kim, Jae-Pil Heo

## Research Projects

---

- Real-time 3D Human Reconstruction via Gaussian Splatting** 2024 – 2025
  - Supported by Electronics and Telecommunications Research Institute (ETRI); Role: **Project Co-leader**
  - Engineered a real-time 3D Gaussian splatting pipeline to reconstruct and render human subjects from live video streams. [[PPT \(Eng\)](#)] [[PPT \(Kor\)](#)] [[Video](#)]
- Deepfake Video Detection for Object and Person Insertion** 2022 – 2024
  - Supported by Korean National Police Agency
  - Designed a robust detection pipeline targeting advanced generative manipulation scenarios.
  - Deployed an interactive web demo to assist real-world investigations. [[Manual](#)] [[Video](#)]
- Virtual Try-on Video Generation using Conditional GANs** 2020 – 2022
  - Supported by Electronics and Telecommunications Research Institute (ETRI)
  - Implemented and optimized conditional GANs to synthesize temporally consistent video generation from static image inputs.

## Awards and Honors

---

- **Qualcomm Innovation Fellowship Korea 2025**, Finalist
- **AI Graduate Excellence Scholarship** (Ph.D.), 2024–present
- **AI Graduate Excellence Scholarship** (M.S.), 2022–2023
- **Sungkyun Software Scholarships**, (Full tuition)

## Service and Skills

---

**Reviewer:** CVPR, ECCV, NeurIPS (2026); AAAI, NeurIPS, IEEE TPAMI (2025)  
**Programming Languages:** Python, C/C++, JavaScript  
**Frameworks/Tools:** PyTorch, TensorRT, xFormers, Docker, Git
